SHEET 2 — SFSP CLAUSE REFERENCE TABLE | Extract every clause from the Standard Fire & Special Perils Policy							
Clause Number	**Clause Type**	**Clause Title**	**Original Text (Key Words — Max 25 words)**	**Plain Language Meaning**	**Denial Ground Linked (DG Code)**	**Risk to Claimant**	Insurance Co. Name
Official clause no. e.g. Clause 7	*Exclusion / Condition / Warranty / Definition*	*Short name e.g. Wilful act exclusion*	*Key words from clause — keep under 25 words*	*What this clause means in plain simple language*	*DG-01 to DG-08 from Sheet 4*	*High / Medium / Low*	
I (a)(i)	Exclusion	Spontaneous Combustion	"Excluding destruction or damage caused by its own fermentation, natural heating or spontaneous combustion."	Insurer won't pay if the fire started naturally from within the goods themselves without external ignition.	DG-03	High: Requires forensic proof of external fire source.	Liberity General Insurance
III (a)	Exclusion	Boiler Explosion	"Excluding loss... to boilers (other than domestic), economizers... resulting from their own explosion/implosion."	Industrial boilers are not covered for their own internal explosions under this policy.	DG-03	Moderate: Often requires a separate "Boiler" policy.	
V (d)	Exclusion	Theft during Peril	"Excluding those caused by Burglary, housebreaking, theft, larceny... in any malicious act." +1	If items are stolen while the building is on fire or during a riot, that theft is not covered.	DG-03	High: Standard fire policies rarely cover incidental theft.	
VIII (a)	Exclusion	Normal Settlement	"Excluding: the normal cracking, settlement or bedding down of new structures." +1	Natural "sinking" or minor cracks in new buildings are not considered "landslide" damage.	DG-03	Moderate: Often disputed as "structural defect" vs "subsidence."	
Gen Ex 4	Exclusion	Precious Goods	"Excluding bullion... precious stones... curios... exceeding Rs.10000... manuscripts, plans... unless expressly stated."	High-value items, cash, and documents are not covered unless specifically listed and extra premium is paid.	DG-06	High: Claimants often fail to declare these items.	
Gen Ex 6	Exclusion	Electrical Risks	"Arising from... short circuiting, arcing... provided exclusion shall apply only to the particular electrical machine so affected." +1	The insurer won't pay for the specific machine that short-circuited, but will pay for the fire it spreads.	DG-03	Moderate: Requires distinguishing between the "source" and "spread."	
Gen Ex 9	Exclusion	Consequential Loss	"Loss of earnings, loss by delay, loss of market or other consequential or indirect loss."	Only physical damage is paid; the profit you lost because your business was closed is not covered.	DG-03	High: Frequently misunderstood by business owners.	
Gen Ex 11	Exclusion	Theft Post-Peril	"Loss by theft during or after the occurrence of any insured peril."	Similar to Riot exclusion; general theft following a fire is excluded.	DG-03	High: Common gap in coverage.	
Condition 1	Condition	Utmost Good Faith	"Policy shall be voidable in the event of mis-representation, mis-description or non-disclosure."	If you lied or hid facts when buying the policy, the insurer can cancel the whole claim.	DG-01	Critical: Can lead to total claim rejection.	
Condition 3(b)	Condition	Unoccupancy	"If the building... becomes unoccupied and so remains for a period of more than 30 days."	If the building is empty for over 30 days without telling the insurer, cover stops.	DG-08	Moderate: Crucial for seasonal businesses or warehouses.	

Condition 6(i)	Condition	Claim Procedure	"Insured shall forthwith give notice... and shall within 15 days... deliver to the Company a claim in writing."	You must inform the company immediately and submit full paperwork within 15 days.	DG-04 / DG-06	High: Common reason for "Delay in Intimation" denials.	
Condition 8	Condition	Fraud	"If the claim be in any respect fraudulent... all benefits under this policy shall be forfeited."	Any lie in the claim form or arson for insurance money results in zero payment.	DG-05	Critical: Legal risk of criminal prosecution.	
Condition 10	Condition	Under-insurance	"If property... be collectively of greater value than the sum insured... Insured shall bear a rateable proportion."	If you insured for 50 Lakhs but the value was 1 Crore, the insurer only pays 50% of any loss.	DG-02	High: Most common reason for reduced (not denied) payouts.	
I (a)(i)	Exclusion	Spontaneous Combustion	"Excluding destruction or damage caused to the property insured by... its own fermentation, natural heating or spontaneous combustion."	Damage is not covered if the fire started naturally from within the goods (chemical reaction) rather than an external spark.	DG-03	High: Insurers often use forensics to prove "internal heating" to deny claims.	
III (a)	Exclusion	Boiler Explosion	"Excluding loss... to boilers (other than domestic)... resulting from their own explosion/implosion."	Industrial boilers are not covered for their own internal pressure-burst damage under this policy.	DG-03	Moderate: Requires a separate Boiler & Pressure Plant policy.	
Gen Ex 5	Exclusion	Precious Goods Limit	"Loss... to bullion or unset precious stones... curios or works of art for an amount exceeding Rs. 10000/-... unless otherwise expressly stated."	High-value items like art, gold, or coins are capped at a very low payout (₹10,000) unless listed individually in the schedule.	DG-06	High: Most claimants overlook this limit until a loss occurs.	
Gen Ex 6	Exclusion	Cold Storage Change	"Loss... to the stocks in Cold Storage premises caused by change of temperature."	If food spoils because the power went out or the cooling failed (without a fire), it is not covered.	DG-03	High: Major risk factor for the food and pharma industries.	
Gen Ex 7	Exclusion	Electrical Risks	"Arising from... short circuiting... exclusion shall apply only to the particular electrical machine... affected and not to other machines... damaged by fire."	The specific item that short-circuited isn't covered, but the damage from the fire it caused to the rest of the building is.	DG-03	Moderate: Often a point of dispute regarding the "start point" of the fire.	
Gen Ex 9	Exclusion	Consequential Loss	"Loss of earnings, loss by delay, loss of market or other consequential or indirect loss."	This policy only pays for physical repairs; it does not replace the income you lose while your business is closed for repairs.	DG-03	Fatal: Claimants often expect "business interruption" cover which is a separate product.	RAHEJA QBE GENERAL INSURANCE

Gen Ex 11	Exclusion	Theft Exclusion	"Loss by theft during or after the occurrence of any insured peril except as provided under Riot, Strike, Malicious Damage."	If items are stolen during the chaos of a fire, the insurer is not liable for those stolen goods.	DG-03	High: Very common in warehouse and retail fires.	COMPANY LIMITED
Gen Cond 1	Condition	Duty of Disclosure	"Policy shall be voidable in the event of mis-representation, mis-description or non-disclosure of any material particulars."	If you hide facts or provide wrong information when buying the policy, the entire contract can be cancelled.	DG-01	Critical: The "foundation" of the claim; can lead to total rejection.	
Gen Cond 3(b)	Condition	30-Day Unoccupancy	"If the building... becomes unoccupied and so remains for a period of more than 30 days."	Cover stops if the building is left empty for over a month without notifying the insurer and getting their consent.	DG-08	Moderate: High risk for closed factories or holiday properties.	
Gen Cond 6(i)	Condition	Claim Timeline	"Insured shall forthwith give notice... and shall within 15 days... deliver to the Company a claim in writing."	You must inform the company immediately ("forthwith") and provide full paperwork within 15 days.	DG-04 / DG-06	High: "Delay in Intimation" is a primary ground for insurance litigation in India.	
Gen Cond 8	Condition	Fraud & Willful Act	"If the claim be in any respect fraudulent... or if the loss or damage be occasioned by the willful act... all benefits... forfeited."	Staged fires or lying about the value of lost items will result in a total loss of benefits and potential legal action.	DG-05	Critical: Permanent blacklisting and claim rejection.	
Gen Cond 10	Condition	Average Clause	"Collectively of greater value than the sum insured... Insured shall be considered as being his own insurer for the difference."	If you under-insure (e.g., insure for 50 Lakhs when value is 1 Crore), the insurer will only pay a fraction of any claim.	DG-02	High: Most claims in India are reduced due to this "Under-insurance" clause.	
I (a)(i)	Exclusion	Spontaneous Combustion	"Excluding destruction or damage caused... by its own fermentation, natural heating or spontaneous combustion".	If a fire starts due to the internal chemical properties of the goods themselves, it is not covered.	DG-03	High: Requires technical proof of an external ignition source.	
III (a)	Exclusion	Boiler Explosion	"Excluding loss... to boilers (other than domestic boilers)... resulting from their own explosion/implosion".	Industrial boilers are not covered for damage caused by their own internal pressure or explosion.	DG-03	Moderate: Typically requires a separate Boiler & Pressure Plant policy.	
V (d)	Exclusion	Malicious Theft	"Excluding... Burglary, housebreaking, theft, larceny... in any malicious act".	If a malicious person steals property during a riot or fire, the theft itself is not covered under this peril.	DG-03	High: Standard SFSP policies do not cover theft-related losses.	

Gen Ex 2	Exclusion	War and Nuclear Risk	"Loss, destruction or damage caused by war, invasion, act of foreign enemy hostilities... rebellion, revolution, insurrection or military or usurped power."	Damage caused by war, civil war, or military uprisings is completely excluded from coverage.	DG-03	Critical: These are "Absolute Exclusions" across almost all standard policies.	Go Digit General Insurance Ltd.
Gen Ex 3	Exclusion	Radioactivity	"Loss... caused to the property insured by... ionising radiations or contamination by radioactivity from any nuclear fuel or from any nuclear waste."	Any damage resulting from nuclear fuel, waste, or radiation is not covered.	DG-03	Critical: Standard insurance never covers nuclear-related disasters.	
Gen Ex 4	Exclusion	Pollution / Contamination	"Loss... caused to the insured property by pollution or contamination excluding... pollution... which itself results from a peril hereby insured."	Damage from pollution is excluded unless a covered peril (like a fire) actually caused the pollution.	DG-03	High: Complex to prove the "Proximate Cause" in environmental damage claims.	
Gen Ex 5	Exclusion	High-Value Items	"Loss... to bullion... curios or works of art for an amount exceeding Rs. 10000/-... unless otherwise expressly stated".	Payout for valuables like gold or art is capped at ₹10,000 unless they are specifically declared.	DG-06	High: Claimants often fail to declare the full value of curios or bullion.	
Gen Ex 6	Exclusion	Cold Storage Change	"Loss... to the stocks in Cold Storage premises caused by change of temperature".	If perishables spoil solely due to a rise in temperature (without fire damage), it is excluded.	DG-03	High: Common denial ground for food or pharmaceutical businesses.	
Gen Ex 7	Exclusion	Electrical Risks	"Arising from... short circuiting... exclusion shall apply only to the particular electrical machine... so affected".	The machine that short-circuits isn't covered, but the fire it starts in the rest of the building is.	DG-03	Moderate: Often a dispute over whether damage was "electrical" or "fire-caused".	
Gen Ex 9	Exclusion	Consequential Loss	"Loss of earnings, loss by delay, loss of market or other consequential or indirect loss".	The policy only pays for physical repairs; it does not replace lost business income or profits.	DG-03	Fatal: This is purely a "Material Damage" policy.	
Gen Ex 11	Exclusion	Post-Peril Theft	"Loss by theft during or after the occurrence of any insured peril".	Any items stolen during the chaos of a fire or while the building is damaged are not covered.	DG-03	High: Significant risk for stores and warehouses during emergencies.	
Gen Ex 12	Exclusion	Convulsions of Nature	"Loss or damage occasioned by or through... directly or indirectly due to earthquake, Volcanic eruption or other convulsions of nature."	Natural disasters like earthquakes or volcanoes are excluded unless you specifically buy an "Add-on" cover.	DG-03	High: Claimants often assume "Special Perils" includes earthquakes, but it requires extra premium.	

Gen Ex 13	Exclusion	Removal of Property	"Loss or damage... if removed to any building or place other than in which it is herein stated to be insured."	If you move your goods to a different warehouse/building without telling the insurer, they are no longer covered.	DG-03	High: Often triggered during business relocations or temporary storage.	
Gen Ex 14	Exclusion	Terrorism Exclusion	"Excludes loss, damage cost or expense... directly or indirectly caused by, resulting from or in connection with any act of terrorism."	Damage from terrorist attacks is not covered by the standard policy unless a specific Terrorism Add-on is purchased.	DG-03	Critical: Terrorism is a separate pool in India and requires explicit inclusion.	
Gen Cond 1	Condition	Misrepresentation	"Policy shall be voidable in the event of mis-representation, mis-description or non-disclosure of any material particular".	If the insured lied or hid facts when taking the policy, the insurer can cancel the whole claim.	DG-01	Critical: Violates "Utmost Good Faith," potentially voiding the policy.	
Gen Cond 3(b)	Condition	Unoccupancy	"If the building... becomes unoccupied and so remains for a period of more than 30 days".	Cover stops if a commercial building is empty for over 30 days without notifying the company.	DG-08	Moderate: Condition not applicable to "Dwellings" (homes).	
Gen Cond 6.1	Condition	Loss Notification	"Insured shall forthwith give notice... and shall within 15 days... deliver... a claim in writing".	You must notify the company immediately and provide full documentation within 15 days.	DG-04 / DG-06	High: "Delay in Intimation" is a primary ground for legal disputes in India.	
Gen Cond 8	Condition	Forfeiture	"If the claim be in any respect fraudulent... or if the loss... be occasioned by the wilful act... benefits... forfeited".	Fake claims or intentional damage (arson) lead to a total loss of benefits and potential legal action.	DG-05	Critical: Results in total claim denial and blacklisting.	
Gen Cond 10	Condition	Condition of Average	"Collectively of greater value than the sum insured... Insured shall be considered as being his own insurer for the difference".	If you under-insure your property, the claim payout will be reduced proportionately to the gap.	DG-02	High: One of the most frequent reasons for reduced payouts in India.
